

**Sparking  
Imaginative Learning**

### **MAD SCIENCE SPECTACULAR SCIENCE ENRICHMENT**

Get ready to touch, see, hear, smell, and taste what science is really all about! Students will engage in fun, interactive and educational hands-on activities that instill a clearer understanding of science and how it affects the world around them. On the way to becoming "Mad Scientists," almost every week participants make and take home a different science project.

Open to grades K - 5.

**SCHOOL:** Blackwell Elementary

**DETAILS:** Mondays 3:30 PM - 4:30 PM

**DATES:** 1/23/2012 - 3/19/2012

**DURATION:** 8 weeks **COST:** \$102.00 per student

**NO CLASS:** February 20th

If registration permits, we will split classes by grade (Ex: K-2, 3-5)

**REGISTER EARLY, SPACE IS LIMITED!**

**FASTER: REGISTER ONLINE AT:**

## **PROGRAM DESCRIPTIONS**

### **COURSE REGISTRATION FORM**

#### **FANTASTIC PHYSICS**

##### **UNDER PRESSURE**

Join Bernoulli and Newton as we take this exciting look at the science behind aerodynamics and the properties of air... under pressure. Use a vortex generator to create air pockets with a punch, and levitate ping-pong balls in defiance of gravity...

##### **CHE-MYSTERY**

Eliminate the mystery in chemistry! Explore one of the most exciting and fundamental sciences as you grow a crazy crystal garden and make your own "chemical" soda pop!

##### **"CURRENT" EVENTS**

Take a tour on the electron freeway! Conductors, insulators, transistors, and other elements in the world of circuit electricity introduce themselves to you via the tingle in your fingertips and the twinkle in your eye...

##### **"FUN"- DAMENTAL FORCES**

Gravity... Inertia... Centripetal force... who could ever imagine that an introduction to physics could be so much fun? We'll experience these awesome forces for ourselves and build some cool devices to watch them at work!

##### **WACKY WAVES**

Create your own multidensity wave bottles while learning about water, waves and the environment. Simulate the effects of an ocean oil spill and develop creative techniques to clean it up!

##### **SCIENCE OF MAGIC**

Magic? No... It's science! You'll learn the secrets behind famous magic that you can recreate for yourself! Mother Nature has some tricks of her own, and we'd like to show you what's up her sleeve!

##### **STUNT PLANES & GLIDERS**

The Wright Brothers would be proud as we follow in their footsteps and learn the fundamental principles of flight. Build a "football" glider, control surfaces and your very own loop-flying stunt plane!

##### **SUPER STRUCTURES**

Discover the strengths of triangles, cylinders and arches. Learn how combinations of these shapes make for sturdy homes and skyscrapers! Use teamwork to build your own super structures as well as an earthquake-proof building!

**DO NOT RETURN THIS FORM TO THE SCHOOL, GO TO:**

(Not all registrations offered online, see front of form)

**Register Early – Space is Limited!!**

## PROGRAM POLICIES

- All supplies and materials are included in the class fee.
- Classes meet hourly, one day/week.
- There is no class on scheduled holidays. If a class is canceled/not held for any reason, a make-up day will automatically be added to the end of the session.
- Children ages 5-12 may be in the same classroom due to our inquiry-based learning approach. We will divide the children up by age if enough children sign up to warrant a second class and the school has a second classroom available.
- We do not pick up children from their classroom, so you may want to send a note to the child's teacher to remind them to go to Mad Science.
- Mad Science will email you prior to the start of the program to confirm your child's enrollment and to inform you of the class location along with dismissal information.
- An alternate topic may be substituted without notice.
- Children must be picked up at the class location as soon as class is over. Mad Science is not responsible for children before or after stated class times. We reserve the right to charge a fee for late pick-up.
- ***Class size is limited so registrations will be accepted on a first-come, first-served basis. Enroll on line for immediate placement. (Not all registrations offered online, see front of form)***
- Questions? Please check our F.A.Q. online, or call us at 425-556-0800.
- **Mad Science employees will not dispense or apply any medication. No medication is to be left in the room with the Mad Science employee or child.**

## REFUND POLICIES

We will make every effort to fill our classes, however, if at least 15 children do not enroll in a particular session, a full refund will be given. In some cases we may opt to run a program with less than 15 students, but this is not guaranteed. If you cancel within 2 weeks prior to the start date of a class a full refund will be given only if we fill your child's slot in the class. If we do not fill the slot then a \$25.00 service fee will be deducted from your refund. If you cancel after the first class, a prorated refund will be given if your child does not wish to continue. However, you must call Mad Science at 425-556-0800 prior to the start of the second week of the ASP to obtain a refund. After that, no refunds will be given.
